# Welcome to the Wilder Kaiser holiday region!

Welcome to winter. Welcome to the Wilder Kaiser region: featuring the crunch of snow beneath your feet, fresh cold air in your face, and a warming drink in one of our rustic huts. While keeping a safe distance, this year we'll enjoy nature in all its facets more than ever. We'll enjoy the space and the freedom to do whatever we feel like. Whether on an extended winter hike, snowshoeing alone in the forest, cross-country skiing, tobogganing or simply taking a leisurely stroll through the tranquil Wilder Kaiser villages, we have compiled all the tours, routes and information worth knowing when it comes to winter activities in the Wilder Kaiser region.

Did you know that travelling by car is the main cause of CO<sub>2</sub> emissions during winter holidays? We are therefore grateful to each and every guest who arrives by train. And for everyone else, colleagues from our Holiday & Leisure Advisory Service will be happy to help you make your next trip more sustainable.

Tour details can  
sometimes change at  
short notice -  
visit **wilderkaiser.info**  
for up-to-date info

# Explore the winter landscape of the Wilder Kaiser holiday region

When it comes to outdoor sports, we once again need both more togetherness and consideration. After all, we have to share the environment. To protect nature and its inhabitants, please continue to adhere to the following points:

## Consideration for winter wildlife

- Due to food scarcity, wild animals reduce their metabolism in winter and are hardly able to compensate for energy losses in the event of disturbances. As a result, please adhere to the following:
- Avoid dusk (when game feed and graze) – it's better to plan a tour 90 minutes after sunrise and until 90 minutes before sunset. Night hikes or downhill runs should be avoided.
  - Do not approach within 300 metres of the feeding areas and habitats of wild animals (observe the restricted zones).
  - Always observe animals from a long, safe distance. Never pursue them.
  - Be calm and quiet.

### Young forests need your protection

Only healthy young trees are capable of growing into a strong forest that protects us from dangers such as avalanches, mudslides or falling rocks - skis, snowshoes and careless behaviour can severely damage young trees. Therefore, please do not enter reforested areas and young forest.

## Dogs

Dogs are perceived as a threat by wild animals and belong on a leash. Doing so prevents potential conflicts with other winter sports enthusiasts. In addition, please use dog waste bags and properly dispose of them in the next available rubbish bin.

## Rubbish

Nature is a precious resource! Rubbish has no place here and must be disposed of in the designated trash cans! Therefore, please take your waste with you down into the valley. This will ensure a pristine natural environment when you next visit.

How long does it really take for things to decompose?  
Decomposition times at glance:

Banana peel 1-3 years	Plastic bottles 100-5000 years	Chewing gum 5 years
Paper tissue 1-5 years	Plastic bags 120-1000 years	Baby diaper, sanitary napkin 500-800 years
Cigarette butts 2-7 years (+ chemicals, heavy metals)	Aluminum cans 400-600 years	Styrofoam 6000 years - i.e. not precisely measurable
Tin cans 50-500 years	Glass bottles 4000-50000 years i.e. not precisely measurable	Batteries 100-1000 years (+ chemicals, heavy metals)

## Mountain sports guides

In order to enjoy mountain tours safely and in a relaxed state of mind, sound training as well as years of experience are necessary. Our guides will be delighted to accompany you on your own tour:

State certified mountain and ski guides:  
For winter and snowshoe hikes, ski tours, freeriding and ice climbing  
[www.wilderkaiser.info/en/activities/state-certified-mountain-ski-guides.html](http://www.wilderkaiser.info/en/activities/state-certified-mountain-ski-guides.html)

Tyrolean Mountain-Hiking Guides:  
For winter and snowshoe tours

## WINTER HIKING

Recharge your batteries against the backdrop of a sunny, glittering winter landscape. As you crunch through the snow, pause and breathe in the crisp winter air, as the relaxing tranquillity invigorates your senses and clears your mind.

# SAFE Winter hiking.

## Checklists

### Tour planning:

- Have you chosen your **tour destination** in line with your skills, physical condition (honest self-assessment) and the snow conditions? Bear in mind: During winter many routes may be inaccessible due to snow!
- Checked the local **conditions**?
- Thought about **orientation** and the **risk of avalanches**?
- Have you checked the **weather forecast**?  
Make sure you check the current local **weather conditions**!
- **Is your time plan realistic**? Leave early – dusk starts around 4 pm in winter. The risk of avalanches increases as the day goes on due to sun and higher temperatures.
- Do you have the right **equipment** for the weather and the tour?
- Have you installed the “SOS-EU-Alp” **emergency app** on your smartphone and tested it?
- Do you have **accident and rescue-costs insurance**?

### Possible alpine dangers:

Sudden weather changes, snowfall, wind, avalanches, fog, ice, sun (risk of avalanches increases as the day goes on). Every day, the changing weather conditions affect the terrain.

**You are personally responsible for assessing at your own discretion whether a route is safe!**

Current avalanche report  
for Tirol  
<https://avalanche.report>

## Tips and advice for staying safe in the mountains.

### Standard equipment for:

**Winter hiking routes** ———  
(= inspected and cleared/groomed)

- Appropriate outdoor clothing for the weather and temperature, including a change of clothes (waterproof trousers)
- Sturdy winter shoes with good traction and a quality outsole (waterproof)
- Hiking poles (height-adjustable)
- Sun protection (sunglasses, sun cream, lip balm)
- Rain and snow protection (rain jacket/poncho, foldable umbrella, backpack covering)
- Warm clothing (hat, gloves)
- Food and drink (sufficient liquids – hot drinks and snacks)
- First aid kit incl. rescue blanket & head torch
- Mobile phone with a fully charged battery
- Hiking map, route description and information materials
- ID, insurance card, cash

### Additional equipment for:

**Alpine winter hiking routes** - - -  
(= not inspected/cleared/groomed)

- sturdy, high-ankle hiking boots with good grip and quality outsole (waterproof)
- Gaiters (in certain conditions)
- Depending on the tour, i.e. in open terrain, also a bivouac sack, avalanche transceiver, probe and shovel

## Winter hiking trail-marker system

The winter hiking routes on yellow summer signposts are marked with **dark green arrows** and **white snowflakes**. Along the trails, they are marked by green signs.

Be careful if you leave the signposted winter hiking routes. In snowy conditions, the summer hiking trail network and its signs may not be visible, putting you at risk of becoming disoriented and subject to Alpine hazards.

### Winter hiking trail signposting along the summer hiking trail network:

Auwald	20 min	14/22	
Föhrenhof	 25 min	14/22	
Scheffau	1 h	14/22	

### Signposting of the winter hiking trails along the cross-country ski trails:

These are dual-use trails – **winter hiking routes** or a **combined trail** for winter hiking and cross-country skiing (skating trail).

### Hiking time calculation

Rule of thumb for calculating hiking time for winter hikes (group of 4 to 6 people):

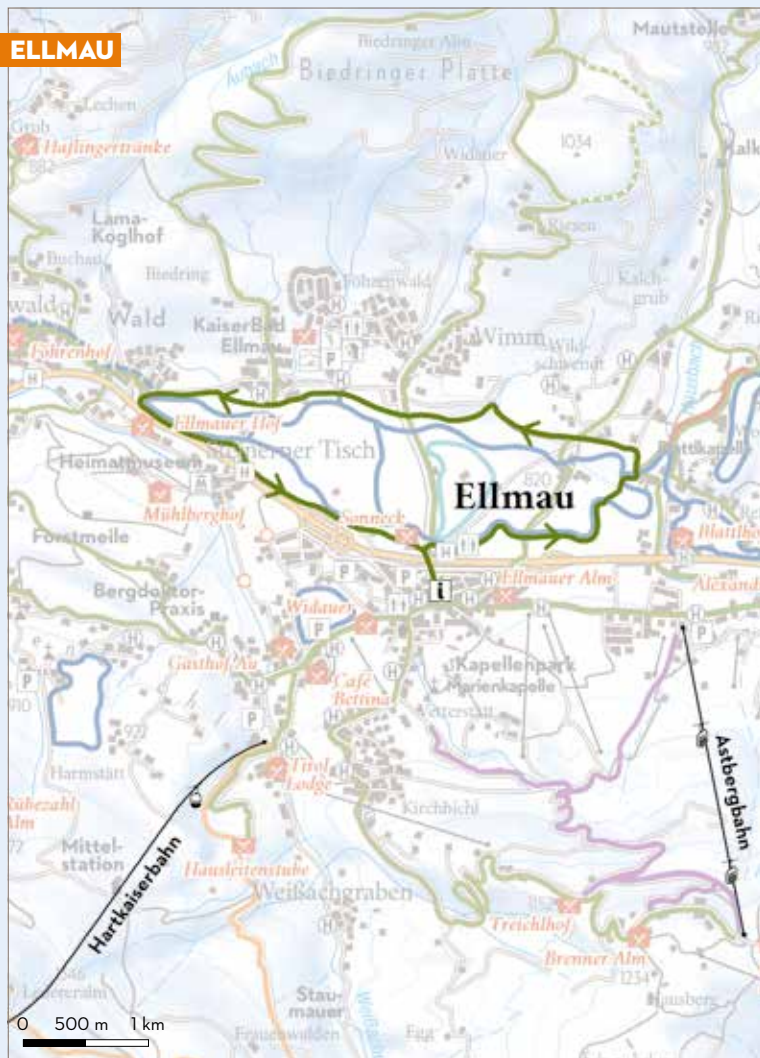

- around 300 metres in altitude per hour for the ascent
- around 500 metres in altitude per hour for the descent
- around 3 horizontal kilometres per hour

The hiking times for the differences in altitude and for the horizontal length are calculated separately. The value of the smaller walking time is halved and added to the larger value.

### Example calculation for an ascent time:

A hiking trail extends over 600 metres in altitude (= 2 hours hiking time) and 9 horizontal kilometres (= 3 hours hiking time). The smaller value is halved. Walking time for the ascent = 1 hour + 3 hours = 4 hours.

# WILDER KAISER CIRCUIT

*A leisurely circular trail along the sunny side of Ellmau.*

- ↔ 5.8 km
- ▢ 50 m in altitude
- ▢ 50 m in altitude
- ⌚ 2 h
- ▲ 820 m
- K ●●●●●
- 👤 suitable for families
- ▶ Hiking starting point  
Tourist Info, Ellmau  
(800 m)
- P Ellmau central car park
- 📍 Ellmau, Dorf/Bauhof

This flat winter hiking trail at the foot of the Wilder Kaiser mountain runs parallel to the Kaiserloipe cross-country ski trail. It extends around the golf course and is particularly suitable for families with sledges. Starting in the village, cross the road heading north near the Ellmau central car park to reach the starting point of the hike, which is a popular golf green in summer. Turning right, the leisurely trail leads to two farms on the Hausbach stream. Walk along the edge of the forest on the groomed winter hiking trail back to the Kaiserbad swim and recreation centre. From there, head in the direction of the Auwald district to the beautiful old farmhouse standing alone in the meadow. After passing it, head back towards the village. There are numerous benches along the along the winter hiking trail where you can take a short break and enjoy wonderful views of Ellmau village and the Kaisergebirge mountain range.

## Tips and special features:

- You can make for any of the numerous sunny benches on the circular walk: they all offer magnificent views.
- If your partner is a cross-country skier, you can accompany him/her part of the way and meet up again for a drink or bite to eat later!

- H Ellmau, Dorf/Bauhof
- Ⓜ Ellmau, Hartkaiserbahn  
gondola lift

This tour is ideal for those keen to hike downhill instead of uphill, or who want to meet skiers at a hut along the way. Walk to the valley station of the Hartkaiserbahn gondola lift and enjoy a comfortable ride up to 1,550 metres elevation. At the top, a small circular trail leads through the forest to a photo point at the panorama picture frame with the backdrop of the Wilder Kaiser range. At the Kaiserexpress chairlift, hike downhill on the groomed winter hiking trail (be careful, this section can be icy in places). In no time, you will reach the next stop, the Jägerhütte mountain inn. Continue to the rustic Rübezah-alm mountain hut. Afterwards, it's worth taking a detour to the Berggasthof Hochschwendt mountain inn (approx. 1 hour of additional hiking time there and back). After a leisurely hike, you'll pass by the set of "Der Bergdoktor" (The Mountain Doctor) before returning back to the village centre.

- H Ellmau, Dorf/Bauhof
- Ⓜ Ellmau, Alte Post hotel or the church

Start your moderately challenging hike at the Ellmau parish church and follow the road uphill via the district of Kirchbichl towards the Brenner Alm mountain hut. Those who wish can grab a drink or meal at the top at one of the mountain huts such as the Treichlhof refreshment stop, or the Brenner Alm or Blattlalm mountain huts and enjoy the magnificent panoramic views. Afterwards it's time to zip down the 4.5-km toboggan run with your **own** toboggan. Fun is guaranteed! Those who prefer the more leisurely option can take the Astbergbahn chairlift back to the valley station in Going and hike along the Marchstrasse back to Ellmau.

You can, of course, also do this winter hike in reverse (starting with the Astbergbahn chairlift). **Tip:** toboggan hire available at the village sports stores.

weg trail

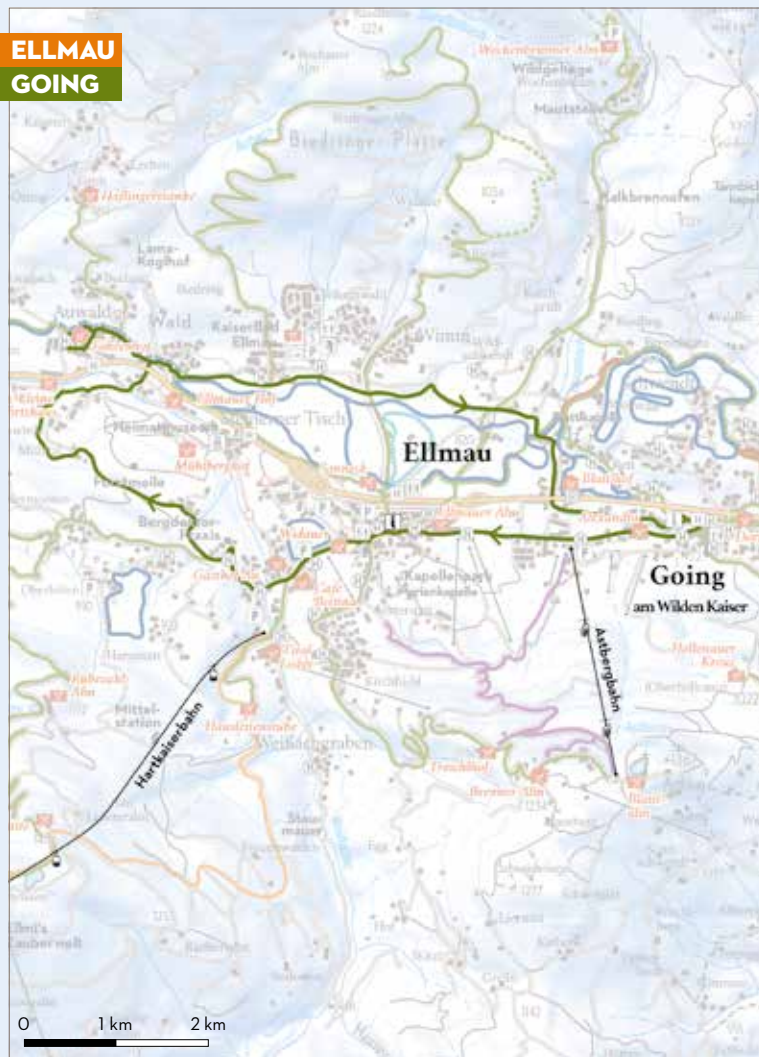

At the foot of the Wilder Kaiser range, hike to a unique vantage point, the Wochenbrunner Alm mountain hut. Start this tour in the village by taking the footbridge at the Sporthotel (in the east of Ellmau). You are now on the Wochenbrunnweg trail, which first crosses the golf course and then passes by the Hausbach stream through the romantic winter forest. Head via a series of sharp bends up to the mountain hut. You'll reach your destination after a leisurely hike of about 1.5 hours. The rustic Wochenbrunner Alm at 1,085 metres boasts wonderful panoramic views from its sun terrace as well as a small wildlife park with red deer, roe deer and mountain goats. As a reward for your efforts, enjoy a hearty platter of Tyrolean cold cuts and bread. With a full stomach, head back down into the valley.

### Refreshment stops:

There are numerous places to get a drink or bite to eat in the village centres of Ellmau and Going.

From the village centre of Ellmau, follow the signs for the “Bergdoktor circuit” to the west. In the district of Faistenbichl, you will arrive at the “Bergdoktor practice” after about 25 minutes. Here you can enjoy the same view as Dr. Martin Gruber from the show. Head through the district of Mühlberg towards Auwinkl. From there, continue to the Gasthof Föhrenhof restaurant, which is the “Gasthof Wilder Kaiser” inn featured in the series. With your belly full, continue following the “Bergdoktor circuit” eastward to the Kaiserbad swim and recreation centre. Continue through the Hausbach district, past the Hotel Blattlhof and under the road along the stream to the church square in Going. After visiting the late baroque church and the “Wilder Kaiser” inn from the TV-series from the outside, walk along the Marchstrasse road back to the starting point in Ellmau.

*The Bergdoktor practice in Ellmau*

## ELLMAU-SCHEFFAU CONNECTING TRAIL

*Enjoy wonderful winter hikes on the sunny side of the mountain in addition to a leisurely return journey via bus.*

- 6.1 km
- 40 m in altitude

- Ⓜ Going, Riederhaus/ Tourist Info

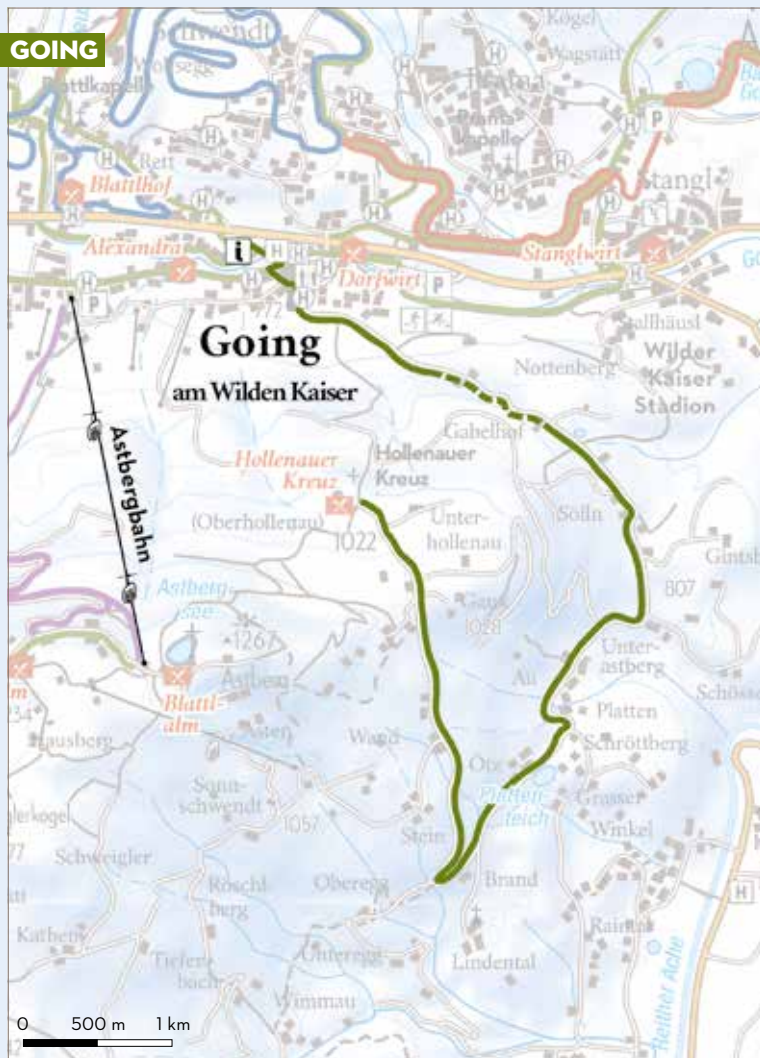

Start at the Tourist Info in Going and walk northwest along the Rettweg street towards the Blattkapelle chapel. Once there, keep to the right and continue following the groomed winter hiking trail north until you reach the houses on your left. Pass by them and hike further along the specially groomed winter hiking trail and enjoy the wonderful views. On the Going Sonnenplateau around the Schwendterdörfel area, enjoy the peace and quiet and the fantastic views of the Wilder Kaiser range. When you reach the small Thurnbichlbach stream, keep to the south and continue along the groomed winter hiking trail until you reach the road (Thurnbichlweg). Continue hiking downhill until you reach the Thurnbichlweg/Pramaweg junction. Turn right then proceed until you reach the underpass at the Raiffeisen bank, which leads you back to the village. Then turn right and follow the Dorfstrasse road back to the starting point.

### Tips and special features:

- Enjoy the magnificent views and the proximity to the Wilder Kaiser mountain range.

### Refreshment stops:

There are numerous places to get a drink or a bite to eat in the village centre of Going.

## HOLLENAUER KREUZ

- P Gemeindeamt municipal car park, Scheffau
- Ⓡ Scheffau, Dorf

This winter hike starts at the church in Scheffau. Follow the road towards the Hintersteiner See lake. Along the way, don't forget to admire the gorge from the bridge. The view is worth it. Now continue on the "Schießling" road for about 300 metres before turning right onto the natural hiking route and walking parallel to the Rehbachklamm gorge until you reach the Leiten-Scheffau village junction. From here, continue in the direction of Scheffau village whilst enjoying the absolute tranquility of the forest and the wonderful winter air. Enjoy the pristine forest trails while enjoying wonderful views of the Kaisergebirge mountain range above and the Rehbachklamm gorge below. Return to the village via the district of Leiten.

## CRYSTAL CLEAR STREAM - A CIRCUIT ALONG THE TREFFAUERBACH STREAM

*An atmospheric forest walk along the snow-white stream bank.*

- ➡ 4.2 km
- ▲ 160 m in altitude
- ▼ 160 m in altitude
- ⌚ 2 h
- ▲ 889 m
- K ●●●●●
- 👨 suitable for families
- ➡ Tourist Info, Scheffau (737 m)
- P Gemeindeamt municipal car park, Scheffau
- 📍 Scheffau, Dorf

From the centre of the village, walk the road along the Wegscheidbach stream up to the Jägerwirt inn. Continue for a short distance through the forest and cross the stream. After a short uphill stretch, you will reach the Steinacker hill. The trail continues ever so slightly downhill. Here you will discover the beautifully renovated Mittersbach farmhouse with its beautiful carved balconies. At this point we will enjoy a small circuit down into the valley following alongside the Treffauerbach stream, which is lined with countless ice crystals via a forest trail back to Scheffau.

**Please note:** this section may be challenging in very snowy conditions.

- 📍 Scheffau, Dorf

After visiting the Scheffau Parish Church, stroll through the sunny side of Scheffau along the Sonnwiesweg trail towards Söll. Along the way, observe kids learning to ski on the practice slope and some traditional farms. After a short stretch through the forest, return to Scheffau via the Wurzach and Blaiken districts. At the Blaiken B&B, turn left and return along a quiet side road past beautiful farmhouses. One of them is the Wiesenhof farm, known for its Tyrolean hearty cuisine. During the hike, enjoy views of the nearby Wilder Kaiser range and the Brandstadl "ski mountain" opposite.

## HINTERSTEINER SEE LAKE CIRCUIT

*Wander through the snowy woods around the glittering ice of Hintersteiner See lake.*

- ↔ 5.7 km
- ↗ 70 m in altitude
- ↘ 70 m in altitude
- ⌚ 2 h
- ▲ 925 m
- K ●●●●●
- ▶ Hiking starting point Seestüberl, Scheffau (889 m)
- P Seestüberl car park (reachable by own car or by ski bus), Scheffau – fee required
- Ⓜ Scheffau, Seestüberl restaurant

The starting point of this circular hike is on the lake's eastern bank at the Café Seestüberl restaurant. Follow the asphalt trail no. 822 along the northern shore until you reach the Pension Maier guesthouse. Enjoy beautiful views of the frozen lake. Just before reaching the Pension Maier, turn left and follow the signs towards the Seestüberl restaurant (trail no. 822) until you reach the forest trail on the southern bank of the lake. Now head slightly uphill and then downhill through the forest until you reach the "Hintersteiner See Süd" junction (**Please note:** this section is not cleared and can be difficult to walk on when there is a lot of snow). From here, turn right and follow the road to the Greidern farm and continue in the direction of Seestüberl restaurant until you arrive back to the starting point on the eastern bank.

### Tips and special features:

- There are many cosy refreshment stops along the path around Hintersteiner See lake.
- The trail is a great place for stomping through fresh snow!

## SNOWSHOE HIKING

Step by step, find your own rhythm in harmony with nature. These are strong impressions that linger for a long time. Enjoy the silence of the Wilder Kaiser's natural landscape.

# SAFE snowshoe hiking.

## Checklists

### Tour planning:

- Have you chosen your **tour destination** in line with your skills, physical condition (honest self-assessment), and the snow conditions? Bear in mind: During winter many routes may be inaccessible due to snow!
- Checked the local **conditions**?
- Thought about **orientation** and the **risk of avalanches**?
- Have you checked the **weather forecast**? Make sure you check the current local **weather conditions**!
- **Is your time plan realistic**? Leave early – dusk starts around 4 pm in winter. The risk of avalanches increases as the day goes on due to sun and higher temperatures.
- Do you have the right **equipment** for the weather and the tour?
- Have you installed the “SOS-EU-Alp” **emergency app** on your smartphone and tested it?
- Got **accident and rescue costs insurance**?

### Equipment:

In addition to your usual winter hiking equipment (see p. 6), you need appropriate snowshoes for your weight and height. Depending on the route, you may also require an avalanche transceiver, probe and shovel!

**Whatever the weather conditions, avalanche danger level, snow conditions and your own familiarity with the location (orientation), always bear in mind that all solo snowshoe hikes are at your own risk!**

# Tips and advice for staying safe in the mountains.

## Mountain sports guides

In order to enjoy mountain tours safely and in a relaxed state of mind, sound training as well as years of experience are necessary. Our guides will be delighted to accompany you on your own tour:

### State certified mountain and ski guides:

For winter and snowshoe hikes, ski tours, freeriding and ice climbing  
[www.wilderkaiser.info/en/activities/state-certified-mountain-ski-guides.html](http://www.wilderkaiser.info/en/activities/state-certified-mountain-ski-guides.html)

### Tyrolean Mountain-Hiking Guides:

For winter and snowshoe hiking tours  
[www.wilderkaiser.info/en/activities/tirolean-mountain-guides.html](http://www.wilderkaiser.info/en/activities/tirolean-mountain-guides.html)

### Possible alpine dangers:

Sudden weather changes, snowfall, wind, avalanches, fog, ice, sun (risk of avalanches increases as the day goes on). Every day, the changing weather conditions affect the terrain.

**You are personally responsible for assessing at your own discretion whether a route is safe!**

Guided tours are available from our **activity programme** and by visiting  
[www.wilderkaiser.info/events/en/events/list-events.html](http://www.wilderkaiser.info/events/en/events/list-events.html)

# GOLF COURSE CIRCUIT

*Perfect for beginners.*

- ↔ 1.3 km
- ⬆ 10 m in altitude
- ⬆ 10 m in altitude
- ⌚ 40 min
- ▲ 782 m
- K ●●●●●
- 👨 suitable for families
- ▶ Ellmau Dorf/Bauhof bus stop (786 m)
- P Ellmau central car park or golf club car park
- Ⓜ Ellmau, Dorf/Bauhof

This easy snowshoe hike is perfect for all beginners. With the Wilder Kaiser range always in sight, traverse the snow-covered golf course via small hills whilst enjoying the sunny winter landscape. Winter hikers, cross-country skiers and snowshoe hikers take advantage of the extensive field at the foot of the Wilder Kaiser with its various routes. Since the route is a circular tour, the direction does not matter.

## Refreshment stops:

There are numerous places for food and drink in the village.

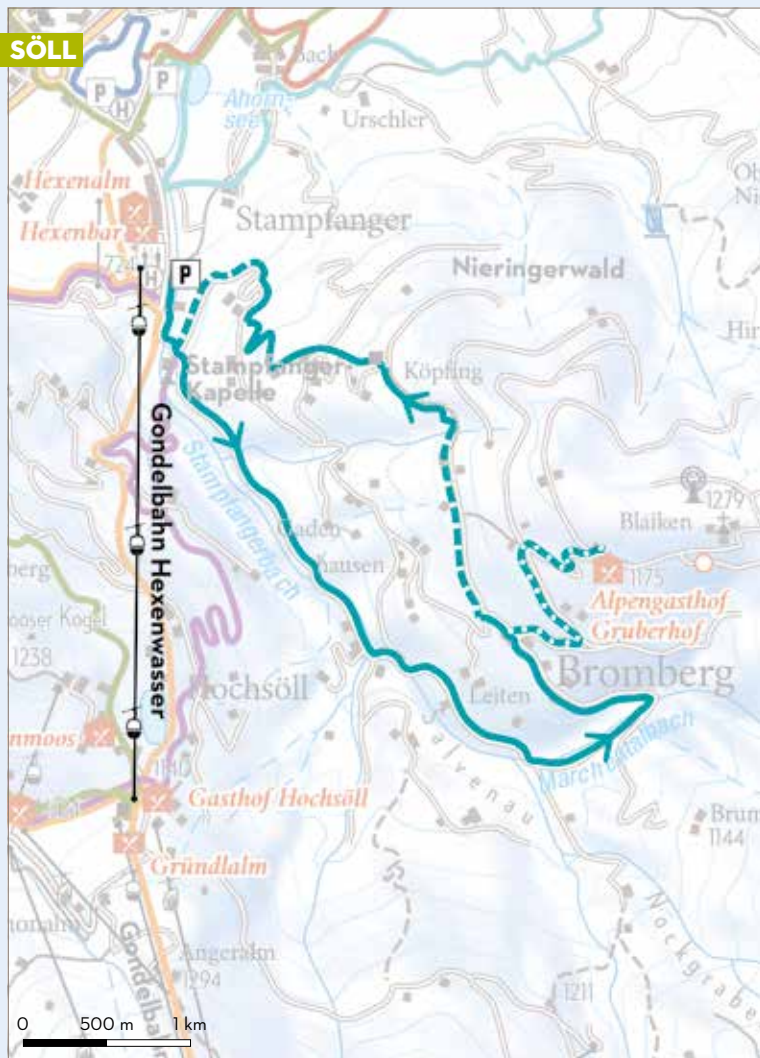

## KAISERALM CIRCUIT

*A circular route for experienced hikers that starts and finishes at the Gasthof Jägerwirt.*

- ↔ 4.8 km
- ▴ 250 m in altitude
- ▾ 250 m in altitude
- ⌚ 3 h 15 min
- ▲ 1,151 m
- K ●●●●●
- ▶ Hiking starting point Wagscheid, Scheffau (883 m)
- P Wagscheid car park, Scheffau – fee required

From the Wagscheid car park below the Jägerwirt inn, hike along the forest road towards the Wagscheidalm mountain hut. The first key point of the snowshoe tour is the narrow wooden bridge over the Wagscheidbach stream. After reaching the Wagscheid-Niederalm mountain hut, leave the forest road and follow the footpath to the left towards the Kaiseralm mountain hut. After about 350 metres, cross the Wagscheidbach stream a second time. Keep left and after a short ascent the Kaiseralm mountain hut comes into view. Hike straight across the Alpine meadow covered deep in snow to the hut. We will now head back into the valley. Follow the road in a southwesterly direction (signpost to the Gaisberg car park). Shortly before reaching the Schießlinghöfe farmhouses, turn left and follow the footpath to the Jägerwirt inn via the Treffer farm.

**PLEASE NOTE:** This tour is only possible when the avalanche conditions are absolutely safe. The section after the Kaiseralm towards Schießling should only be traversed by those with avalanche training and equipment.  
<https://avalanche.report>

## BROMBERG CIRCUIT

*Explore the popular route passing the TV filming spot on snowshoes.*

- ↔ 7 km
- ⬆ 350 m in altitude
- ⬆ 350 m in altitude
- ⌚ 4 h 45 min
- ▲ 1,070 m
- K ●●●●●
- ▶ Cable car valley station, Söll (725 m)
- P Valley station car park, Söll
- Ⓜ Söll, Lift SkiWelt Söll

From the main car park (just before the valley station at Stampfanger 21), walk along a forest trail to the Stampfangerkapelle chapel. From there, head left along the Stampfangerbach stream up to Höckenhof/direction Gruberhof farm. At the Höckenhof farmhouse, hike briefly down and past the Talern farm in the direction of Köpfing. Descend cross-country until you arrive back at the starting point (ideally following the ski tour ascent tracks or otherwise along the road, as this is better without snowshoes).

**Tip:** Alternatively, at the Höckenhof farmhouse, you can also follow the Bromberg road to the right further up towards Alpengasthof Gruberhof inn and treat yourself to a drink or a bite to eat. Walk back along the trail to the Höckenhof farm to join the circuit again. The additional detour extends the total hiking time by about one hour and 15 minutes.

*Keen to toboggan? You have to ascend the mountain first!*

Unknown

*# even***better***in reality*

## TOBOGGANING

Family-friendly toboggan runs are just the place to build up some speed and put the finishing touch on your winter holiday in the Wilder Kaiser region. There's fun and excitement at every turn!

## SAFE tobogganing.

*Tobogganing is fun for one and all. But tobogganing also involves risks. Here are a few tips worth knowing before you go.*

- 1. Be considerate of others**  
**Toboggan fans**  
Behave in such a way that you do not endanger or harm others.
- 2. Observe closures and warning signs**  
Make sure that the route has been cleared for tobogganing. Inform yourself about the course and condition of the toboggan run.
- 3. Good equipment matters**  
For safety reasons, use only quality toboggans as opposed to plastic bobs or sledges. Always wear a helmet and sturdy footwear.
- 4. Be attentive/careful when going up**  
Walk to the right and in single file. Only cross the toboggan run in unobstructed spots that allow you a clear view of the run.
- 5. Toboggan in a controlled manner, keep an eye out for others and maintain a safe distance**  
Adjust your speed and style to your ability, the number of other people, and the conditions of the toboggan run, i.e. snow, ice, weather conditions, etc.
- 6. Draw attention to yourself**  
Warn those who are ascending that you are coming down (loud shouting). In the dark: wear a headlamp and reflective clothing.
- 7. Wait for others in your party at safe locations**  
Make sure everyone in your group is safely together. Never stop in places where you might cause bottlenecks or where people ascending cannot see you.
- 8. Tobogganing on ski slopes is dangerous and prohibited**  
The risk of colliding with Skiers is high. At night, ice can affect the quality of the toboggan track.

## Tips and advice for staying safe in the mountains.

### 9. No dogs

It is very difficult to keep dogs under control during the ascent and descent. Toboggan runs tend to be narrow, and there is a high risk of collision with toboggan riders on their way down.

### 10. Do not toboggan under the influence of alcohol or drugs

Intoxicants lower your ability to react quickly and make you less able to assess risks accurately.

### Important information:

- Daily, weekly and season tickets are not valid in the evening!
- All toboggan runs are closed for slope grooming between 5 pm and 6.30 pm!
- For night-time tobogganing, you can rent toboggans directly from the valley stations in Going and Söll.

**Should a toboggan accident occur:  
Make the accident site safe, provide  
first aid, and have your ID ready.**

## Checklist

### Equipment:

- sturdy boots/tall hiking boots with a good outsole
- Ski trousers or waterproof trousers
- Helmet
- Ski goggles
- Gloves
- Gaiters (in certain conditions)
- Headlamp (in certain conditions)

## Award winning:

The Astberg toboggan run in Going as well as the Hexenritt and the Mondrodelbahn toboggan runs in Söll were awarded the Tyrolean seal of quality for natural toboggan runs.

## Difficulty classification

### Easy natural toboggan run

A natural toboggan run (i.e. the Mondrodelbahn toboggan run) is classified as easy and is also suitable for beginners or children. It has a maximum gradient of 14 %, an average gradient of up to 10 % and curves with a radius of at least 8 metres.

### Moderately difficult toboggan runs

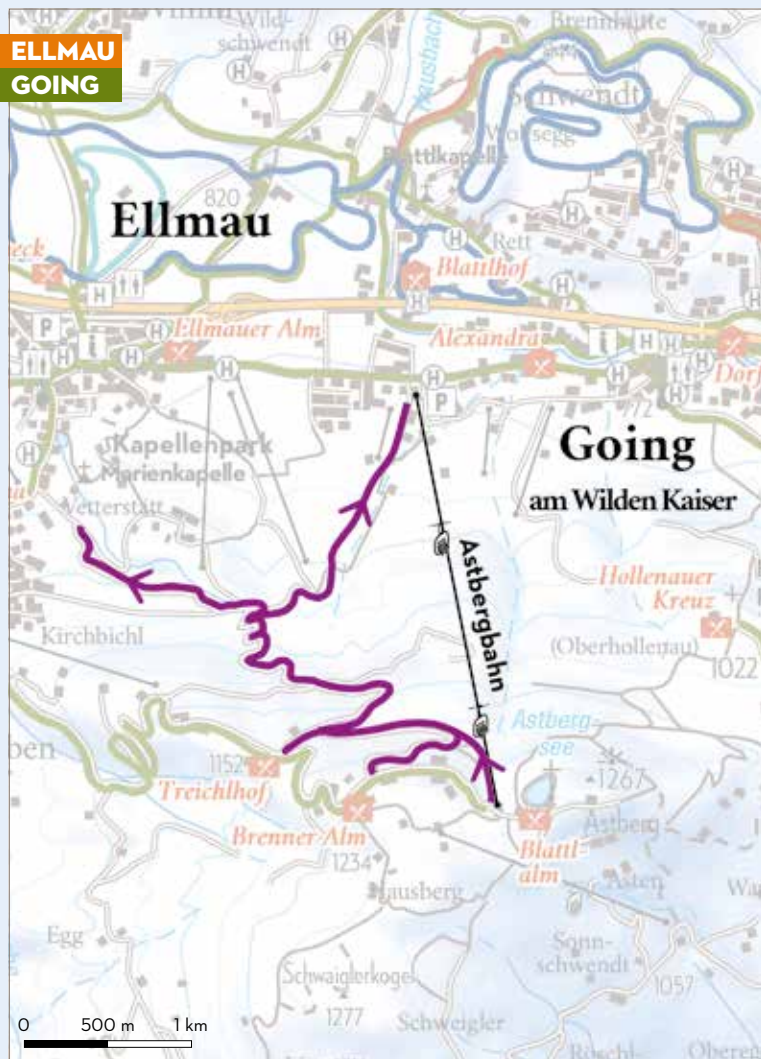

A moderate natural toboggan run (i.e. the Hexenritt run) has a maximum gradient of 18 %, an average gradient of up to 12 % and curves with a radius of at least 6 metres.

### Difficult toboggan runs

A Difficult natural toboggan run may only be used by experienced tobogganists. It has a maximum gradient of over 18 %, an average slope of over 12 % and curves with a radius of less than 6 metres.

# ASTBERG MOUNTAIN

*A mountain with lots of tobogganing options and good refreshment stops.*

- ↔ 4.5 km

The Mondrodelbahn toboggan run is open and floodlit in the evenings only. Operating hours: Wednesday through Saturday from 6:30 to 10:30 pm (lift operation until 9:30 pm). The Hexenwasser gondola lift makes getting to the starting point easy and convenient. The start of the track is just below the mountain station of the Hexenwasser gondola lift. The toboggan run, which is over eight metres wide, makes overtaking easy and also leads past the Stöcklalm mountain hut. Along the route there are four discovery points related to the phases of the moon, the starry sky and the North Star. Families in particular can enjoy a safe, fun experience on this 4-km, easy toboggan run. The track is not reliant on the moon alone: it is optimally floodlit and receives both natural and artificial snow. A special experience awaits for one and all.

The start of this toboggan run on the Hohe Salve is just below the mountain station of the Hexenwasser gondola lift. The track features a great route through the forest and truly lives up to its name. After all, it takes a bit of courage to really lean into the curves when thundering down fast-paced trails. The Hexenritt run (witches' ride) ends after a little less than three kilometres shortly after the Stampfanger chapel, above the valley station of the Söll cable car. A few magic moments along the way make this track truly memorable. The toboggan run is equipped with a permanent snow-making system. From Wednesday to Saturday, you can take the cable car to the start of the course until 9:30 pm. Those keen to spend a bit longer at a mountain hut at the top have until 1:00 am to safely descend via the illuminated track. Ready, set, fun!

## CROSS-COUNTRY SKIING

Whether gliding gently or skating fast, during a cross-country ski tour in the Wilder Kaiser region you can enjoy not only the scenery but also fun of winter sports at your own pace.

## SAFE cross-country skiing.

*Cross-country skiing is a healthy nature sport providing great opportunities for fitness, experiences and community. The following recommendations are intended to help make cross-country skiing safer, nature-friendly and conflict-free.*

- 1. Be considerate of others**  
All cross-country skiers must ensure that no one is endangered or harmed by their behaviour.
- 2. Signage, direction and technique**  
Observe all markings and signals (safety signs). Always use trails and slopes in the specified direction and with the specified technique.
- 3. Track and trail selection**  
On trails with two or more tracks, use the right-hand track. Groups of cross-country skiers must use the right-hand track in single file. When free-styling, keep to the right-hand side of the trail.
- 4. Overtaking**  
Overtaking is allowed on the right or left. The skier in front of you is not obliged to give way but should consider doing so if it is safe.
- 5. Oncoming traffic**  
When encountering oncoming skiers, both skiers should stay right. Cross-country skiers going downhill have priority.
- 6. Pole safety**  
Keep your poles close to your body when you overtake another trail user, when you are being overtaken, and when you pass an oncoming trail user.
- 7. Appropriate speed**  
All cross-country skiers must adapt their speed and their behaviour to their own level of ability, the terrain, the density of traffic and the current visibility. This is especially important when going downhill. Always keep a safe distance to the skier in front of you. Always be prepared to drop to the ground to prevent a collision.

## Tips and hints to ensure safety while cross-country skiing.

- 8. Avoiding obstructions**  
Leave the cross-country trail or slope when taking a break. Clear the cross-country trail or slope as quickly as possible after a fall.
- 9. Provision of aid**  
All trail users are obliged to help others in the event of an accident.
- 10. ID requirements**  
All participants and witnesses, whether responsible or not, must provide their own personal details in the event of an accident.

© FIS Rules of Conduct

## Checklist

### Equipment:

- Cross country skis & boots
- Cross-country poles (the length depends on your cross-country skiing style)
- Cross-country coat and/or vest (ideally, a breathable item with a wind stopper)
- Cross-country trousers
- Thermal underwear
- Cross-country gloves
- Headband/hat
- Sunglasses, sun cream
- A water bottle attached to a belt or small backpack, energy bars
- Tissues
- Mobile phone

**Tip:** Scheffau's most popular cross-country attraction, the artificially **snow-covered village trail**, is **illuminated until 9:30 pm every day!**

In winter, cardio enthusiasts get to take advantage of the illuminated circuit (1.1 km) every evening.

**Parking** is available at the community hall in Scheffau, where it is possible to join the track.

The **winter hiking map** contains comprehensive information about the region's cross-country trails and winter hiking routes.

## Difficulty classification

### Easy trails

Easy trails are predominantly flat. They have no uphill and downhill sections with inclines of more than 10 % except for some short sections in open terrain. Downhill sections on classic-style trails must offer skiers unobstructed views of the entire trail without forcing them to change direction actively at any point. They are marked in the colour **BLUE**.

### Moderately difficult trails

Moderately difficult trails extend mainly through undulating terrain. They have no uphill and downhill sections with inclines of more than 20 % except for some short sections in open terrain. Downhill sections on classic-style trails may have bends that force skiers to change direction actively. They are marked in **RED**.

### Difficult trails

Difficult trails have uphill and downhill sections with inclines that exceed the maximum angles for moderate trails. They are marked in **BLACK**.

**Tip:** The Top ski school offers cross-country training every Friday. All details are available from [www.wilderkaiser.info/events/en/events/list-events.html](http://www.wilderkaiser.info/events/en/events/list-events.html)

## Cross-country trail-marker system

The cross-country trail-marker system helps you find your bearings along the way. Please adhere to the specified purposes of the trails!

## Classification by style

### Classic-style trails

With the exception of uphill and downhill stretches, cross-country ski trails for classic technique may only be used for classic style, keeping the skis parallel to one another.

Note: Such trails are also called “cross-country ski trails.”

### Trail for free-style technique/skating

Trails for free-style/skating may also be used for classic style.

Do not walk on cross-country trails!

Keep dogs on a lead and dispose of any waste!

Please use the provided bags for dog waste!

Horseback riding is prohibited!

## SKI TOURS ON SLOPES

After a sweaty, yet safe ascent on the margins of the slopes and a well-deserved break at one of the ski resort's cosy huts, enjoy a well-deserved downhill run on one of the optimally groomed slopes.

## Difficulty classification

### Easy ski tours on slopes

- for the ascent track: up to 20 % (approx. 11°) average gradient in the longitudinal profile
- up to 25 % (approx. 14°) maximum gradient in longitudinal profile, with the exception of short, slightly steeper sections
- up to 50 % (approx. 27°) slope incline
- all changes of direction are easy in curves.

### Moderately difficult ski tours on slopes

- for the ascent track: up to 30 % (approx. 17°) average gradient in the longitudinal profile
- up to 40 % (approx. 22°) maximum gradient in longitudinal profile
- up to 70 % (approx. 35°) slope incline
- most changes of direction are possible in curves, in isolated places simple hairpin turns may be necessary (hairpin terrain = from approx. 50%/27° incline).

### Difficult ski tours on slopes

- the values clearly exceed those of the moderately difficult ski tours on slopes route
- Ascent and changes of direction require strength and good hairpin technique (hairpin terrain = from approx. 50 % / 27° incline).

## Ski tours on slopes marker system

The ski tours on slopes marker system helps you find your bearings along the way. Please adhere to these orange signs and their instructions.

Further information about ski tours in the Wilder Kaiser region is available online.

**IN THE WILDER KAISER REGION**

*Ice stock sport*

*Paragliding*

*Llama trekking*

*Horse-drawn sleigh rides*

*Snowbiking*

*Ice skating*

## KaiserBad Ellmau.

*The perfect place to have fun and relax whatever the weather.*

### Swimming & children

The **Kaiserbadswim and recreation centre in Ellmau** turns a day of bathing into a true adventure thanks to the sauna area and the exciting indoor pool featuring the "Ellmi's Freunde" kids' play area. Located at the foot of the Wilder Kaiser range, this swimming pool features everything families are looking for on its extensive grounds. From the indoor adventure pool, parents and children can swim directly to the warm 30°C heated outdoor pool. The re-imagined children's area was generously expanded to include several play and fun areas. At "Ellmi's friends" at the Kaiserbad swim and recreation centre, little ones come up big!

### Climbing

Anyone who wants to take a break from the water can work off some energy in the climbing hall. Whether you're a beginner or seasoned pro looking for somewhere to train, the newly built indoor climbing centre provides the ideal conditions and plenty of space for you to try out your skills. With a floor area of 173 m<sup>2</sup>, there is 805 m<sup>2</sup> of climbing space with a height of up to 16 metres. The centre features around 100 routes varying in difficulty level from 3 to 10. Of these routes, 35 lines can be climbed simultaneously. Safety is of utmost importance, which is why the centre is equipped with two TOPPAS securing machine. It also boasts a small bouldering and warm-up area.

**Tip:** try out climbing for yourself during a taster climbing session at Kaiserbad Ellmau. Receive top advice from mountain and sport-climbing guides. You'll find all the relevant information online at [www.wilderkaiser.info/events/en/events/list-events.html](http://www.wilderkaiser.info/events/en/events/list-events.html)

### Spa and sauna

Keeping your body and soul in harmony with the elements is one way of boosting health and promoting relaxation. What could be better than spending some time looking after your own health and well-being in a completely tranquil environment? The new spa area is an ideal place for true relaxation with a stone pine panorama sauna, salt steam bath and herbal steam bath. The infrared cabins, some with salt mist, offer deep relaxation and the enlarged log cabin sauna with its crushed ice machine is an absolute treat. The relaxation areas, including the Kaiser terrace, hay barn and sauna bar, have something for every sauna aficionado.

### Indoor tennis centre

The two indoor courts are the perfect place for tennis lovers.

## Guest Card = ticket

For scheduled public transport services  
(all year round, GuestCard holders only)

**Line 4060:** Wörgl – Itter – Söll – Scheffau – Ellmau – Going – St. Johann i. T.

**Line 4006:** Kitzbühel – Reith – Going – Ellmau

**Line 4902:** Kufstein – Schwoich – Söll

Guests must present their **GuestCard** immediately upon boarding. BürgerCard, StaffCard and FreizeitwohnsitzCard holders can borrow special tickets (VVT tickets) for free public transport throughout Tirol from the Tourist Info instead (subject to availability).

## Notes & Conditions. The Wilde Kaiser GuestCard:

- is available in bank card format or as an eco-friendly digital card on your smartphone.
- is provided free of charge by your host upon check-in or in advance via e-mail.
- is non-transferable and is valid up to and including your day of departure
- does not include warranty or compensation coverage for services not consumed or unavailable.

Short-term changes to the range of services offered may occur.

The Tourismusverband Wilder Kaiser's General Terms and Conditions apply  
[www.wilderkaiser.info/en/general-terms-conditions.html](http://www.wilderkaiser.info/en/general-terms-conditions.html)

## Tourist tax

### Your contribution to service and infrastructure

The tourist tax (also called visitor's tax or local tax) is legally mandated by the state of Tirol and serves to promote Tirolean tourism. The accommodation provider is obliged to collect the tourist tax on behalf of the Federal State of Tirol. The greater part of this tax goes to the Tourismusverband Wilder Kaiser which uses it to finance, amongst other things, tourism infrastructure, publications, guest relations, ski and hikers' buses, and events.

A tourist tax of **€2.50 per person per night** applies in all four villages in the Wilder Kaiser holiday region. Persons aged 15 or under at the end of the calendar year are exempt from the tourist tax.

## WILDER KAISER

### Schnell & günstig zum Wilden Kaiser. Mit der Bahn.

100% entspannt. 100% mobil. Immer günstig dank Super Sparpreisen oder BahnCard. Bereits ab 17,90 Euro, solange verfügbar. Der Wilde Kaiser ist aus fast ganz Deutschland bestens erreichbar – mit dem ICE in Hochgeschwindigkeit bis nach München und dann schnell weiter, z. B. nach Kufstein. Oder im Nachtsprung mit dem ÖBB Nightjet oder den Nacht-ICE-Verbindungen!

# Getting around the Wilder Kaiser region

## Ski buses

Numerous free ski buses available in every village transport guests to the local valley stations at regular intervals.

**TIP:** By taking advantage of the cable car's ski storage facilities, you can ride the ski bus in comfortable shoes with no equipment!

**Missed the bus? No problem! Our local taxi companies will be happy to take you to your destination (Price by agreement).**

## Hiking with bus support

With the ski bus, winter hikers or cross-country skiers can access the most beautiful and secluded corners of the Wilder Kaiser region. Locations such as Scheffau's Hintersteiner See lake, the Söll Sunnseitweg route, Ellmau's Bergdoktor practice and the Schwendt Sonnenplateau in Going can all be reached with ski buses. These can easily be combined with the regular bus service, which is also free of charge and runs between Ellmau, Going, Scheffau and Söll. Another attractive option is to hike to a neighbouring village and then return by bus. Savour the calm side of the Kaiser region and enjoy a relaxing day in the fresh air – thanks to the high frequency service you can end your tour at any time and return to your accommodation.

Public bus plan

# Sustainable printing

*The Wilder Kaiser region is a strong proponent of sustainability. This applies to print materials as well. As a consequence, this brochure was printed on environmentally friendly paper. In addition, the greenhouse gas emissions were offset to benefit regional projects in the Austrian Alpine region.*

*The following certificates are available on all of our print materials:*

The “**Printed in Austria**” seal of quality stands for printed products that have been produced with the highest quality and Austrian know-how.

PEFC (Programme for the Endorsement of Forest Certification Schemes) guarantees sustainable forest management and wood processing, so that products throughout entire added value chain for wood (i.e. from the forest to the finished product on the shelf) originate from actively, sustainably and eco-friendly managed forests (source: [pefc.at](http://pefc.at))

With this seal of quality, ClimatePartner confirms that all CO<sub>2</sub> emissions calculated for the printing of this brochure were offset via recognised climate protection projects. Each CO<sub>2</sub> offset receives an individual ID number. Using this number and web address, you can also view the compensation and the supported project (source: [ClimatePartner.com](http://ClimatePartner.com)).
